Goldenview Resumes MRI Testing after Installing Its New Open MRI Equipment

We are very pleased to inform you that Goldenview Imaging and Diagnostics will resume MRI testing **on Wednesday, January 9, 2008** after completing the installation of its new Open MRI Equipment. The installation of our new Hitachi Airis II Open MRI equipment has gone very smoothly.

We are excited about the capabilities for vastly improved image quality and faster scanning times that we now have with the new equipment. We believe we will provide your patients and clients with outstanding imaging services on the new MRI equipment.

As before, our office is open from 8:30 am to 5 pm, Monday to Friday and will be available to schedule your patients for testing starting now.

We are looking forward to continuing to provide to you and your clients excellent MRI and X-ray services.
